Extensive Reference List for the AirGIS System

List compiled April 2011

Descriptions of the AirGIS System

AirGIS – address based

AirGIS – tracking based

Description of Air Quality Models in the AirGIS System

OSPM:

UBM:

Simple Urban Background (SUB) Procedure

OML-Highway
**Emission factors**

**Model validation intercomparison**

**Specific modelling issues**

*Traffic produced turbulence TPT*

**Model applications:**

*OSPM*

See References in:

**Application of OSPM/AirGIS in Epidemiological Studies**

**Application of AirGIS in Air Quality Assessment and Management**
